DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(e) as being anticipated by US 20040145196 issued to Katz. Katz discloses a firearm carrier (aka pooch pooh snatcher) having an open and closed position and comprising a handle (see Fig. 20), single strand of wire 178 bent to form two saddles (see bends at corners). The device is capable of gripping and holding a firearm. The limitation "for a long arm firearm" in the preamble is merely a statement directed at intended use. The open section of wire is removably attached to the handle by way of the excrement engaging distal edges 170

3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by US 2705988 issued to Schulte. Schulte discloses a firearm carrier having an open and closed position comprising a handle 34 and a plurality (2) of a single strand of wire bent to form saddles (bends). The straight line section runs through the handle while the open section is attached to the bag. A bag with the above device is capable of gripping and supporting a firearm. The open end is attached to the handle via the straight line

section. The straight line section runs through the longitudinal slots 36, 38 of the handle.

Allowable Subject Matter

4. Claims 8 and 9 are allowed.
5. Claims 4-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments, filed 07/15/05, with respect to the objections/rejections set forth in the previous Office Action mailed 02/22/05 have been fully considered and are persuasive. The all objections/rejections of have been withdrawn.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3641

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited on form PTO-892 are cited as of interest to show similar
